

This document provides verified evidence of the active payment processing and checkout infrastructure for Benchless. Payments and automated digital fulfillment are integrated with Polar (polar.sh) using authenticated serverless webhooks.

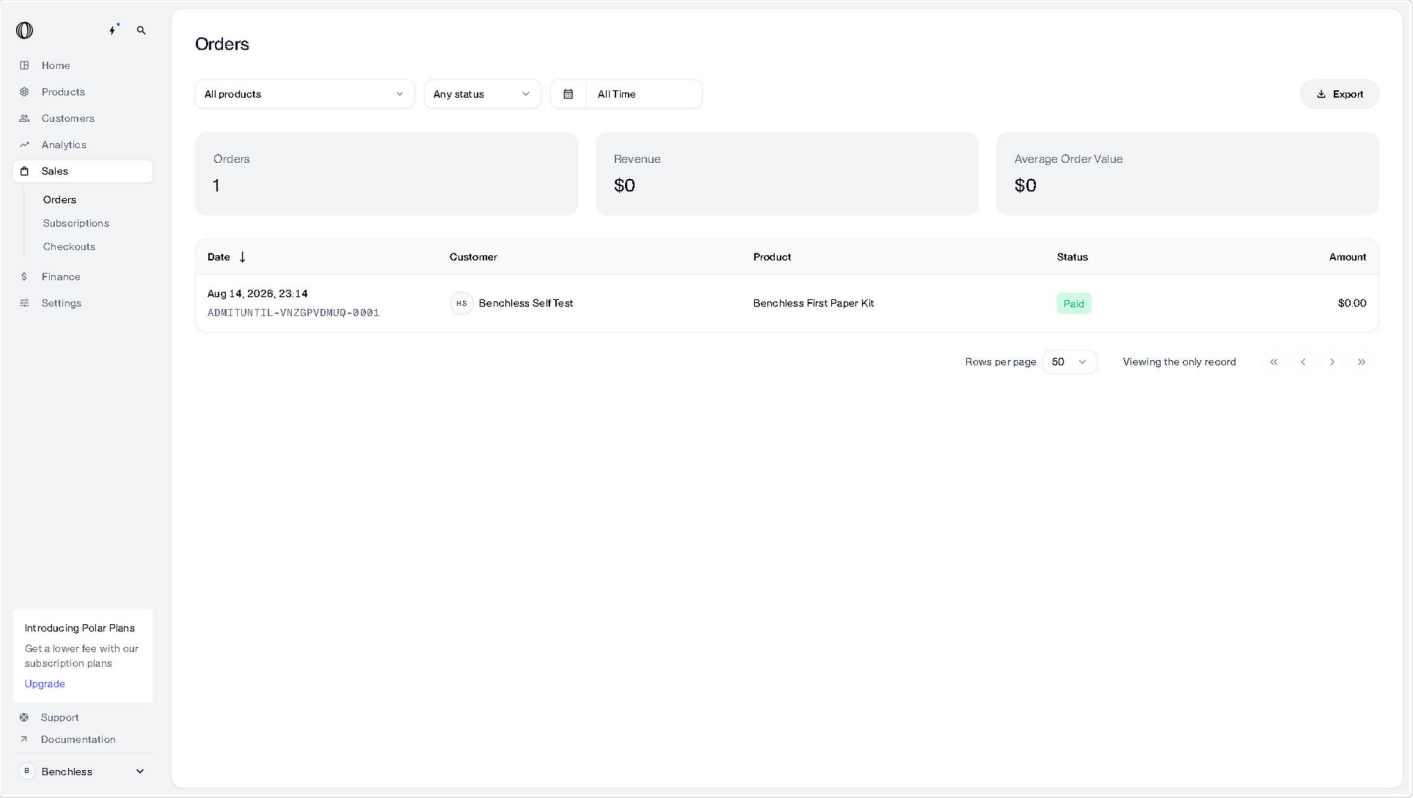

Figure 1: Polar.sh merchant dashboard confirming connected payment processing account and active checkout integration.

Operational & Governance Highlights:

- 1. Active Checkout: Users can purchase simulation scoping packages at benchless-app.web.app/kit.html.
- 2. Standing Governance Rule: Sales to family, friends, or agency clients are strictly prohibited.
- 3. Commercial Falsification Threshold: Published target of 8 committed students at \$200+ by November 12, 2026.
- 4. Live Governance Ledger: Publicly verifiable at benchless-app.web.app/governance.html.
